Lived up to Sales and Marketing Promises

99% of TrustRadius reviewers stated that Veeam Data Cloud for Microsoft 365 lived up to sales and marketing promises.

Veeam Data Cloud has given this organization confidence in maintaining business operations after an incident.

"We use Veeam Data Cloud for Microsoft 365 for daily backups and retention to ensure that we are proactively and aggressively preparing for any disruption, business continuity scenario, or outage that would cause issues across our organization. By using Veeam Data Cloud for Microsoft 365 we are ensuring that we can remain resilient in the event of an incident or disruption to normal business operations and have the ability to restore quickly with confidence."

★★★★★

Using Veeam Data Cloud has saved time for this organization and made their data easier to maintain.

"We are using Veeam Data Cloud for Microsoft 365 for sharepoint, teams and mail backup. Because Veeam is running this in the cloud, the restore of data takes less time which is a huge advantage. Before we had the Veeam software on prem, we had to maintain the server, storage, and network connectivity which is now totally replaced by the cloud services. This is easier to manage and to maintain."

trScore

8.6

Using aggregated data from TrustRadius, trScore measures the overall satisfaction users have with a product. Veeam Data Cloud's high trScore indicates that the majority of reviewers are highly satisfied with their experience using this product.

Data Access, Recovery, & Restoration

» Veeam Data Cloud offers users flexible options for data access, restoration, and recovery. The product aims to give users a variety of options for restoration and complete control over recovery of data that has been lost, deleted, or maliciously attacked.

Veeam Data Cloud allowed this user to easily recover mismanaged files.

"In the process of migration of our datascape to the cloud during changes in employees, some files fell through the cracks, and others were moved accidentally. We were able to easily recover files that were mismanaged during one such transition."

Verified User | Technician in Information Technology | Primary/Secondary Education, 501-1000 employees ⬭ Incentivized
★★★★☆

This user appreciates that Veeam Data Cloud ensured they were ready to handle data disruptions.

"Our organization has benefited by continuous testing and annual planning and preparation work to ensure we are capable and ready in the event of a business continuity event, accidental deletion, or malicious activity. Having multiple options and restore points allows us to know that we are covered and can be confident that we are restoring to a clean point once our investigation of the scenario is complete."

★★★★★

High Quality Features

This user appreciates the following features of Veeam Data Cloud:

- "The dashboard information provides an overview of our data."
- "Testing features allow us to simulate attacks or data loss."
- "Monitoring the storage used by users to see if any are abusing it."

Verified User | Manager in Information Technology | Hospital & Health Care, 501-1000 employees ⬭ Incentivized
★★★★★

Veeam Data Cloud's restoration and exporting features streamline processes for this user.

- "Restoring email directly to an account streamlines the recovery process for a quick turnaround."
- "Exporting a mailbox to a .pst file allows us to make long term copies of accounts."

Verified User | Administrator in Information Technology | Mechanical Or Industrial Engineering, 1001-5000 employees ⬭ Incentivized

Ransomware Recovery	8.0

Ease of Use

Usability

8.9

Veeam Data Cloud reviewers have given the product a usability rating of 8.9/10. This rating reflects the ease or difficulty users came across while using the product. Veeam Data Cloud's rating and related reviews indicate that the majority of users find the product easy to use.

This user found Veeam Data Cloud to be user-friendly with easy integration capabilities.

"Veeam Data Cloud has an easy and user-friendly interface, easy integration with Microsoft 365 cloud, strong backup and recovery functionality, and robust security features. It is one of the few solutions that can export to .pst files and also has a very simple opt-out because the data is stored on the Microsoft cloud."

Verified User | Engineer in Information Technology | Machinery, 501-1000 employees   Incentivized

★★★★½

Veeam Data Cloud is simple to set up and is backed by helpful resources and solutions.

- "Ease of Restoration: you can restore any email within minutes."
- "Simple Setup and Automation: The onboarding of the solution takes 30 minutes."
- "Strong Support and Documentation: The internet is rich with articles about Veeam, and you can find solutions easily without the need to open tickets."
