

Veeam Data Cloud for Microsoft 365

Modernize Your Microsoft 365 Backup Strategy

Transition to Veeam's fully managed SaaS solution for Microsoft 365 and take advantage of a limited-time offer. Eliminate infrastructure management, reduce costs, and let your IT team focus on higher-value work, while maintaining trusted Microsoft 365 protection.

Why Veeam Data Cloud?

Simplify Operations

No infrastructure, storage, patching, or maintenance to manage.

Lower Total Cost of Ownership

Reduce operational costs with a predictable, fully managed SaaS solution.

Strengthen Protection

Protect Microsoft 365 and Microsoft Entra ID with trusted Veeam backup and advanced threat detection.

Continuous Innovation

Automatically access the latest platform capabilities without managing upgrades or patch cycles.

Designed for Organizations That Want to

- Simplify Microsoft 365 backup management
- Reduce operational overhead
- Eliminate backup infrastructure maintenance
- Free IT resources for strategic initiatives
- Modernize data protection with a fully managed SaaS solution
